

Ontario Chapter

Technical Committee Notice

The RCI Ontario Chapter has established a Technical Committee with several goals including:

- Encouraging Chapter members to participate in the annual RCI Document Completion.
- Encourage questions, thoughts, examples, and case studies that can be considered by the Committee and, where appropriate, published by the Chapter for the benefit of our members.

If you wish to contact the Technical Committee, please send an email to rci@rci-onchapterinc.ca with the Subject "Attn: Technical Committee".

Note: In responding to questions, the technical committee will canvass our resources and offer responses based on information from leading companies, individuals, or groups that have offered credible opinion or fact on the subject. We will not guess, answer, offer opinion on a subject question as individuals but will respond collectively as agents for the dissemination of credible opinion or verified fact.

Gary Hamilton, Technical Committee Co-Chair
